No-231/2026

Family Health Centre ,

Meenadom, Date- 22/05/26

## Health and Sanitation Certificate

I have inspected the site of Vimalambika Senior Secondary School, Pampady P.O. Kottayam, Kerala on 21/05/2026 and found that sufficient safe drinking water supplied and other purpose is available in school premises. Provision for disposal of waste materials and toilet facilities separately for girls and boys are provided in the school campus and kept it clean. They kept first aid kit to manage minor medical emergencies.

I certified that a healthy atmosphere is provided in the school building and its campus. From the public health point of view it is found fit for the functioning of a public school.
